Re: Jumbo Mining
Consulting Contract

Dear Mr. King:

The Bureau of Water Pollution Control (the Bureau) appreciates the opportunity to review the proposal made by James M. Montgomery Consulting Engineers to Jumbo Mining evaluating the heap leach pads at the Drum Mine facilities.

The proposal appears to be adequate, with the exception that the consultant must evaluate the capacity of the natural material beneath the heap to adequately support the heap leach pad, so that the liner system will not be compromised.

Please call if there are any questions.

Sincerely,

Kiran L. Bhayani, P.E.
Manager, Design Evaluation Section
Bureau of Water Pollution Control
